Vignobles M&J Perromat

Château Beauregard Ducasse

AOC Red Graves

History

This vineyard (92 Acres) was established in 1850 by Albert Duran, in Mazères, towards the South of the Graves appellation.

Jacques Perromat took over his in law's estate in 1983. He is an expert when it comes to blending technology with tradition, in view of extracting the very best potential from the terroir.

The age of the vines is 15 years old. The vineyard for this wine is about 61 Acres.

In order to preserve the grapes quality, we have planted 3 000 vines stock/ Acre (45hl/ha).

Terroir

Our terroir in the Graves is marked by its complexity gravel, sand and iron concretions with a predominant clay limestone soil. What make us stand out in comparison to others is that we are positioned on the highest hilltop of the Graves appellation. This means that we benefit from grapes that ripen exceptionally well.

Blending

This vintage emerged from a blend of 60% of Merlot, 30% of Cabernet Sauvignon and 10% of Cabernet Franc.

Winemaking

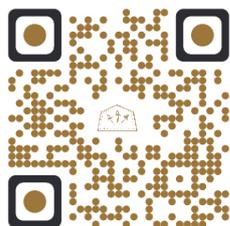

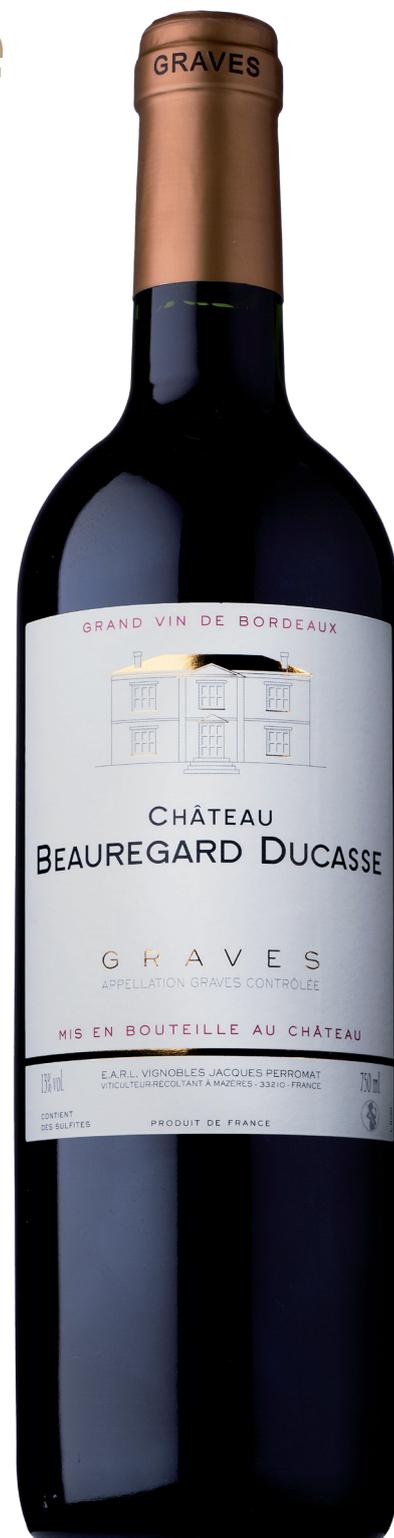

Hand picked harvests to perpetrate the family tradition, complete destemming, cold maceration before the fermentation to enhance the aromas, temperature checks of the fermentation, long extraction between 20 and 30 days.

80% of this wine is aged in stainless steel vats for between 18 to 24 months to preserve the fresh and intense aromas. The remaining 20% is aged in barrels which generates more complexity.

Tasting notes

"This wine profits from balanced varieties of grapes where the Cabernet brings flavor and structure and the Merlot is perfumed and flexible in the mouth. As young wines, they develop red fruits (cranberries and raspberries) flavors accompanied by spicy and roasted notes. The ample mouth is both strong and fine and offers a good length." Jacques Perromat.

Serve between 16 degrees and 18 degrees centigrade with with grilled or casseroled meats, a chicken basquaise, leg of lamb with herbs of the maquis and charcuterie.
